How to play Who's who? -game

1. Answer 4 initial questions and choose the character, who you would like to be for a week.
2. After this you can either scan QR codes on other players' screens, or let other players scan your own QR code.
3. Your target is to get acquainted with as many other players as possible, and get all 16 game characters to your collection.
4. When you scan a QR code, you get a random question about the person you just met (what did he/she answer to one of the initial questions), or you may see two characters and you need to guess which one the person you just met selected in the beginning.
5. Each correct answer and new character found give you points.
6. If you find a person who chose the same character as you, then that's your *Soulmate*, and you get bonus points. You get additional bonus points if you take a selfie of you two and post it to the event "image gallery".
7. The game also counts the number of interactions, so you may see how effectively the players have met each others.
8. The player who scores the most points, wins.
