How to play the game

1. Install the ActionTrack app from App Store or Google Play. Start the app and join the game.
2. You can view your 5x5 bingo coupon on the map, superimposed on the world map.
3. There are 15 bingo balls available at the start, located around your coupon. New bingo balls (1-75) will appear around the coupon regularly as they are drawn.
4. To create a mark on your coupon, please select a bingo ball that matches any number on your coupon. You then need to give the right answer to a given question to earn the ball.
5. The sum of the last two balls earned is also accepted. For example, if you choose balls 10 and 7 and you have number 17 on your coupon, your coupon will be marked.
6. Each ball followed by the right answer will give you 10 points and each mark on your coupon will give you 50 points.
7. You get bonus points for the bingos you create based on time used. You get 500 points for one line bingo, plus 50 extra points for every minute under 40 minutes. You get 1000 points for two lines bingo, plus 100 extra points for every minute under 50 minutes. You get 2000 points for a full house bingo, plus 200 additional points for every minute under an hour.
8. Notice that you lose 100 points if you answer three questions in a row incorrectly.
9. The game can either have a preset maximum duration or end time, or alternatively the game ends when you fill up the coupon.
10. The player/team with the highest total score wins.
